Job Assignments:
      Jeremy: Frontend/Backend
      Henry: Backend
      Taylor: Backend/UI Design
      Alan: Backend/Database/DevOps

Team	Feedback	Response
Audiovision	Try using useEffect for heart button for Plan Liking	We didn't have time to work on the like button and useEffect with it, but we understand the use of the useEffect hook and how it would definitely help with some edge cases for the like button. It would be a nice touch, but our current button does work.
ThriveToday (Found on our own)	Navbar does not work properly on smaller devices like IPhones- buttons and titles scrunch into each other	Our site will be primarily used on Desktop, so it does not appear as an immediate issue and does not affect the user experience.
